

**FILOZOFICKÁ
FAKULTA**

UNIVERZITA KONŠTANTÍNA FILOZOFA V NITRE

Dear students,

I sincerely congratulate you on your admission to study at the Faculty of Arts of the Constantine the Philosopher University in Nitra, one of the biggest philosophical faculties in Slovakia, which has more than 60 years of experience in providing higher education in humanities-oriented disciplines.

You will study in the oldest city in Slovakia, which is also a city of young people, as it is home to several universities. Nitra, which is steeped in history, will offer you a wide range of opportunities to spend your time in a meaningful way. Every year, the Student Parliament of UKF prepares many events for students, we should mention some of the most popular ones like ***Oktoberfest, the Matriculation Ball*** or ***the University Hockey between UKF and SPU. The Nitra University Days*** have also gained popularity among students, during which you can take part in many events. The chairs themselves also prepare varied activities in cooperation with active students. For example, *beánie* (a ceremony by which senior students of a university welcome first-year students), quizzes or various themed evenings. Art-oriented students can also find their place here. You can take part in ***creative writing courses*** or the activities of ***the VYDI student theatre***.

Our university is not lagging behind in student support either. **The Student Centre** will be at your disposal, offering counselling services and services to support students' activities beyond the teaching process. Centralised counselling activities include careers counselling and education, psychological counselling, health counselling, scholarship counselling, student loans and support for students with specific learning needs. **The Paul Strauss' University Pastoral Center** provides spiritual services for students, but also organises a lot of events.

I believe that by confirming your request, you will be happy to join the two thousand students of our faculty and ***take a journey of knowledge, unique and unforgettable experiences*** together with us. However, you can already join us and follow our activities on the faculty's website, as well as on the social networks Facebook and Instagram.

We are looking forward to seeing you! 😊

*prof. PhDr. Martin Hetényi, PhD.
dean of the Faculty of Arts CPU in Nitra*
